

SOLRX *Sunblock: Apply Today...Reapply Tomorrow™*

Ever wonder why your sunblock failed? You put on a high spf, but still got burned. It's because it didn't stay on. **SolRx** sunblock allows you to feel comfortable in your own skin, while affording the best possible sun protection. **SolRx** is the only sunblock in the industry with WaterBlock®-- the nation's number 1 rated waterproof system.

- **Testing / SPF Effectiveness / Skin Irritation:** **SolRx** 8 hour waterproof sunblock has been proven, in multiple independent lab tests, to be the most long-lasting sun protection. **SolRx**, unlike the mass market brands, conducts its SPF testing AFTER 8 HOURS, which means the SPF ratings remained constant for 8 hours. There was ZERO wash-off. (Mass market spf ratings are assigned after only 80 minutes, which means the spf it started with may not be the same after several hours.)
- **Skin Irritation:** **SolRx** rated ZERO irritation (best rating) in the RIPT, the industry's skin irritation test. (Full test results at www.solrx.com) **SolRx** is the only sunblock maker to publish its tests).
- **SolRx** SPF #44 & SPF #35: Organic aloe based, paraben free, with no petrolatum to harm dive gear. Both products have the new 4 star FDA highest protection rating, and Parsol 1789, the most effective UVA blocking agent. SPF #44-also available in 32 oz. pump, is the most economical way to supply yourself, your staff and your dive boats. Sought after in the retail market by your customers familiar with **SolRx** / Pro Sport.
- **Lip Ice SPF #30:** With vanilla and moisturizers-feels better, goes on smoother than typical lip products. So superior to mass market brands, consumers frequently order by dozens.
- **Saurus Lip/Nose:** Sold exclusively at dive and surf shops for 18 years, it is known in the scuba industry for its effectiveness in waterproof lip protection.
- **Marine Sting:** Organic aloe with 2% lidocaine: New TSA travel-size packaging. Immediate relief from jellyfish and Portuguese man-of-war stings.
- **Aloe Sunburn Relief:** **SolRx** Sunburn Relief, certified organic aloe cream, is the most effective product available, with 4 times more pain relief than mass market brands.
- **Blue Aloe:** certified organic aloe, with lidocaine-immediate relief.
- **"Green Aloe":** Now clear with no added color-certified organic aloe.
All After Sun items in TSA-approved for travel, 2 oz. tubes.
- **DEET:** New England Journal of Medicine and Wall Street Journal did definitive studies on all insect repellent products, and the conclusion was the only thing that works is DEET. 6 oz. aerosol-dual action valve allows you to spray upside down. Feels better, smells better than mass market brands.

Products are so superior to what is generally available in the marketplace, you're going to want to use them, and you're going to want to sell them!
