## STERISOL GERMICIDE

### MOUTHPIECE AND REGULATOR SANITIZER

Finally an EPA approved sanitizer for Scuba and Snorkel mouthpieces! Sterisol is a safe but effective sanitizer for mouthpieces that, when used as directed, will kill virus, bacteria and fungus that may be lurking on rental equipment. In addition, active ingredients in Sterisol has been found effective against the tuberculosis bacteria.

Sterisol is completely safe for all plastics, rubbers and silicones and will not affect regulator diaphragms. Sterisol will also reduce odors in close breathing apparatus.
