

DiveOPTX, the leader in underwater corrective lenses, introduces an innovative and exciting new line of polarized UV safe sunglasses, designed for the active diver...

- Advanced frame designs with special DiveOptx 1.1 mm hard surface scratch resistant, polarized lens for all day UV protection.
- Quality, comfort, multiple new designs, and great pricing in sunglasses available exclusively to Dive Stores from Trident.

Lens colors:

- Grey smoke; True color clarity, least color change to wearers surroundings.
- Grey / green; Coolest color on the eyes and minimum of color change to surroundings.
- Brown; Best color for seeing through the surface of water, best for fishing and boating.

Soft case and wipe cloth are included with each pair of DiveOptx sunglasses
